Education

2017 – 2020, Bachelor of Arts in Computer Science, 2:1 Honors

2017 – Leaving Cert

Relevant Experience

Demonstrator for the Programming Support Centre over summer 2019.

Tutor for first year computer science students (2018 – 2019).

About Me

- Paying attention to little details within design and implementation to make sure an application is implemented as desired.
- Taking problems and finding viable solutions for them.
- Constantly learning to improve skills and creativity for solving problems.

Tools & Languages

- React
- JavaScript
- HTML
- CSS
- Git
- Adobe XD
- Java
- PHP
- Node.js
- Python
- Processing

Current Projects

- **Foodber** – Using React and a food API to serve recipes as a fun and interactive app mocked as a popular dating app Tinder, but for food.
- **DrawingTogetha** – Using Node.js, sockets and JavaScript to produce a shared canvas, where people can draw together, using a simple map function it allows to work on any device that supports a modern browser.
- **ProjectNet** – A platform for investors and users, to showcase enterprise projects.
